

## **HIGHER OCTAVE ASSIGNMENTS with URANIAN PLANETS TO OUR “VISIBLE” SOLAR SYSTEM PLANETS: What It Means by Eileen Nauman**

*Copyright 2023 Eileen Nauman*

Here is my project I undertook in the 1980's regarding the connection between the Uranian planets to the “known” solar system planets. I created these assignments four decades ago and have used this formula/knowledge with great success.

The Higher Octave planets are the eight Uranian planets, and are located in the 4<sup>th</sup> dimension (4D) that rules our subconscious. Because they are at higher vibrational frequencies, they are in alignment with the higher vibrational frequency of the incoming Age of Aquarius energy that is now pouring into our 3D world.

Higher Octave planets take on the characteristics of the assigned Lower Octave planets and IMPROVES and supports each planet and elevates them providing the soul is capable of working with the higher vibration of them. Uranian planets operate on our subconscious level, and it affects us whether we know it or not. Some people who are already tuned into the Age of Aquarius energy will be utilizing the Uranian planets a hundred percent on the CONSCIOUS level. I call these SUPER POWERS because they become the driving force consciously in such people. We are in need of NEW LEADERS with A NEW VISION of what the Age of Aquarius can be for all people in our world. These souls have deliberately incarnated into this time frame to be here to help with this global transition. With other people, however, who are not “awake” or “conscious,” they won't be aware of these higher frequencies, depending upon their soul age and incarnations, and may well fight this integration process. It is up to each soul to make that choice.
